## Recall

*What exactly is a recall?*

A recall appointment is a re-examination of the patient. It is a check to see if everything is going well.

It does not mean that any treatment is needed. It only means that it is time to see them again so that we can check and make sure that their teeth and jaws are growing correctly.

Recall appointments are also to monitor the growth and development of the child; before active orthodontic treatment is started. As you want to make sure that all of the teeth are erupting correctly and that facial growth is occurring on schedule.

If a problem does start to occur, you would want to know this before it becomes a serious problem. A parent would have no way of knowing if everything was proceeding properly, because orthodontic problems do not cause any pain. There is nothing that would alert you to something being wrong.

Orthodontists are not only experts in straightening teeth, they are also experts in the growth and development of the mouth, jaws, and face.

Each child is unique and so Dr. Fuller places them on different recall schedules. Their individual time frame may be a few weeks from now or several months from now.

It is important to keep these appointments because Dr. Fuller is serious about watching out for problems that may occur.

He provides this service free of charge. So take advantage of this opportunity to come in and make the most of your child's smile.

### **NEWS FLASH:**

Hi! My names is James Pota and I just took a vacation to Hawaii. I had a lot of fun. One thing that we did was go fishing on a boat in the ocean for six hours. It was gnarly and I got sea-sick.

We also were going to go parasailing, but I didn't want to go that day. So, I went scuba diving instead. I went

down 40 feet and saw a lot of colorful fish. There were also some turtles that were huge. Dr. Fuller, it was really cool down there.

### **NEWS FLASH:**

I went to Hawaii on a summer vacation with my brother James and my parents. My name is Nicole Pota. I went jet skiing and parasailing. Whoa, I went up 800 feet in the air. I was scared at first and was screaming., but then I liked it. Afterwards, I ask my Dad if we could go again, but just a little easier next time.
